

[From Introduction] The global socioeconomic chaos has everyone desperately looking for answers. Prior to the CovidMania, the world had a certain order. Sure there were problems here and there...But life for most Americans was a steady increase in prosperity and most of us expected the world to get increasingly peaceful, interconnected, less tribalistic, self-driving cars, and so on. Oh boy, have things changed. Then CovidMania hit in early 2020, Anthony Fauci, The WHO (World Health Organization) and a sort of 'Priesthood of Scientism' essentially became dictators of the world and locked down much of the planet. Suddenly billions of people became potential criminals by just wanting to go about their lives as before.

To a significant degree Robert Kennedy Jr's book, "The Real Anthony Fauci", being a #1 bestseller on Amazon.com and thus the bestselling book in the world for nearly 2 months, and long after publication a still-bestseller in numerous science-related categories thus an obvious eye-sore to the 'Priesthood of Scientism', is akin to Martin Luther's "95 Theses" which sparked the Protestant Revolution and thus a massive change in the views-mythology of the times. Sixty percent of the book's content deals with the HIV->Death myth, the Fauci-Pope, and essentially the growth and functioning of the 'Priesthood of Scientism'. The vast majority of slightly smarter apes understandably just go along with Fauci's Priesthood as did the masses go along with the Pope's Crusades, but the sheer obvious stupidity of the lockdowns and coerced vaccinations, especially of kids, has greatly accelerated the rate at which that 2-3% of the population that actually reads books and can think a bit more independently is waking up to the fact that so much of mainstream medicine is nonsense and run by incompetent bureaucrats-priests.

Many Americans and people all over the world are beginning to understand how vital freedom is, and just as importantly, how we must use our rapidly diminishing freedom to organize and defend it, and hopefully start a 'Freedom Reconquista' that not only puts the breaks on the increasing coercive government control, chaos and tyranny, but can enlighten and liberate the whole world from the economic ignorance that ultimately underpins all of our problems.
